Wayne Walker addressed the board concerning a water bill on Woodcliff Road/Edgar Buckner Road. He stated that he didn't and couldn't get anyone to help him understand why he had a \$3,000 water bill. Ella Dishman stated that it was because of theft of services. Ella called Bobby Farley and Bobby explained that there had been a service line ran from the double wide to the single wide trailer (illegally) and that when the gas company was doing work out there, they cut the service line and called the water department. We went and found that the lock had been cut from the meter and they have been using water for seven years without paying. We pulled the meter and charged him

for the water that he has used resulting in the \$3,000 water bill. Ella Dishman said that this has been explained to you from Evonne and Bobby. Mr. Walker stated that he would let his attorney handle this.

Interim Mayor Mark Farley
